Seguendo la scia delle ultime tendenze dell'abitare, dove l'imperativo categorico è creare ambienti caldi e accoglienti, il colore diventa la chiave di lettura di questo progetto, utilizzato sia tono su tono che in contrasto, per creare spazi di forte impatto e carattere. I tre prodotti dai formati e dalle sensazioni materiche differenti si uniscono attraverso un gioco di armonie di tinte, creando soluzioni diverse dal forte equilibrio estetico.

EN. La collezione è composta da colori di base dalla grafica sottile e da dodici diversi pattern realizzati nei sei colori che compongono, appunto, tutta la serie. Quadra è un 20,5x20,5, in gres porcellanato smaltato, adatto per pavimento e rivestimento. Le proposte grafiche sono state studiate per poter dare suggestioni differenti, sia attraverso l'uso dei contrasti cromatici che attraverso l'accostamento di motivi geometrici tradizionali con motivi più attuali e di tendenza.

Abbiamo pensato ad una superficie che potesse permetterci di sperimentare nuove esperienze cromatiche. La collezione Multiforma è caratterizzata infatti, da una palette dalla forte proprietà comunicativa. Abbiamo voluto giocare con i contrasti, e con le possibilità che possono nascere accostandoli a nuance più neutre. Multiforma è un materiale versatile, che si accosta in maniera sinergica con le principali superfici prodotte da Eccentrico; ha una texture che ricorda la materia tridimensionale delle resine e una superficie studiata per ricreare quegli effetti unici nella riflessione della luce.

EN. We designed a surface that would allow us to experiment with new colour experiences. The Multiforma collection is in fact characterised by a palette with a strong communicative element. We set out to play with contrasts and with the possibilities that can be created by combining them with more neutral shades. Multiforma is a versatile material that combines synergistically with the main surfaces produced by Eccentrico; it has a texture that resembles the three-dimensional material of resins and a surface designed to recreate those unique effects in the reflection of light.
